

Manufacturing of Atem products in India

The Secretary Defence Production
Department of Defence Production and Supplies
136 South Block
New Delhi-110011

Date: 01/02/22

Atem is a French SME dedicated mostly for defence markets by providing complex, ruggedized and embedded subsystems with high standards in quality & production capabilities, from sensors to users. We supply directly French key defence players and their main subcontractors with the following portfolio:

- Atem RadioFrequency & Microwave (**Atem RF&M**): Tailor-made coax cable assemblies, Radio Frequency and microwave subsystems, Radars for sensitive sites
- Atem Electronics & Systems (**Atem E&S**): Racks and cabinets, Ruggedized electronic products (Displays, Panels PC, Consoles, Touch tables...)
- Composite technical parts (**VN Composites**): radomes, carters, light structural parts...

Atem brings essential technology in the performance of defence systems. Our products are integrated into main defence programs such as the Ground Military radars from Thales, RAFALE, electromagnetic missiles from MBDA, ground segment for telecommunication systems... We also take part in various operations from the initial idea through to maintenance, proof-of-concept (POC), prototypes, pilot series parts, pilot runs, production, device modernisation. **Leading defence market players place their confidence in our company's historic sector on strategic activities.**

We are fully aware of the thrust being provided by Government of India (GoI) towards self-reliance in manufacturing of high-end technology products. We are sensitized to the initiatives of Ministry of Defence for the "Make in India" Program" and we would like to be engaged within this India defence strategy.

Vista Consoles Electronics Pvt. Ltd. is a company registered under the Laws of India that manufactures rugged Multifunction Consoles and Displays in India. We have identified the said Company as our Indian partner for manufacturing, sale & services of our whole portfolio offer. This partnership will enable Vista Consoles Electronics Pvt. Ltd. to be a point of contact for placement of orders and after sales support of Atem range of products. We believe that this step by our company is in line with the thrust provided by Government of India towards self-reliance & Make in India.
